

TOUR OF HAMSTERLEY RALLY

10TH MAY 2009

MARSHALS NEWSLETTER no2

MARSHALS

Sorry for the delay in getting the second Newsletter compiled and distributed. As much as i wanted to get it done much earlier, i have been busy with other duties for the event, as well as other motorsport activities and then sometimes try and include a normal life into that. Many of you will relate to that.

Thank you to all the marshals who have already offered their time and help to the event, but we still need marshals. If you are able to help, get in touch with one of the Stage Commanders listed in this Newsletter. Stang is run twice with no gap between each run, so is ideal for those who don't want an early start or want to get home at an earlier time. Hamsterley stages are run twice with about a 3 hr gap in between.

INFORMATION

The website now has the entry list online and the blog is updated now and then. For those who have already volunteered, more information regarding signing on times etc can be got from your Stage Commander. Those who are Radio Operators, see Bill Winning.

There will be a food van in Hamsterley from about 7am at The Grove car park and there throughout the day. With a good gap between first and second runs, this will be accessible for marshals but we ask that you only exit and re-enter your stage in stage direction please for safety reasons.

THE TEAM

Since the last Newsletter, we now have Stage Commanders for all stages. Geoff Balls is now running both runs through Stang and Leigh MacDonald from Darlington is running SS3 & 8 in Hamsterley. Mark Dickenson is running SS1 & 6, while David Scrimgour is running SS2 & 7 also in Hamsterley.
